

Follow The Light

Follow the light, the one with the brightest hue.

Never lose sight, keep it in you,

At the end of the day.

We'll find the one we're searching for,

We'll never be far away.

We'll be together once more.

Follow the light, though it may go dim at times.

Never forget all the things we've let make a difference in all of our lives.

Never lose sight, just follow, follow the light,

Follow the light.

The brilliance of our destiny

We know we know our vision is right and we soon will be free.

That's where true light will shine on, as we recall evermore.

We'll never be alone, we will always be free.

Follow the light, though it may go dim at times.

Never forget all the things we've let make a difference in all of our lives.

Never lose sight, just go on, follow the light.

Never lose sight, come on follow the light.

Just wait through the night, follow the light.

Follow the light, yeah, follow the light.

Follow the light

Follow the light
