

Clear The Air

G - Em - C - D (fingerpicked)

G

Taken wrong and misunderstood,

Em

My meaning lost along the way.

C

I'm trying now to speak it gently,

D

Set the record straight today.

G

I never meant to sound unkind,

Em

Never meant to make you doubt—

C

Just trying to tell the truth in me

D G

And let the tension all fall out.

G

I'm just trying to clear the air,

Em

Lay my truth down soft and bare—

C

I've stumbled, but I still care,

D

And I don't want this hurt to stay.

G

If my words ever brought you pain,

Em

Know my heart was never chained—

C

I'm asking you to let me explain,

D

And maybe forgive me someday.

G

I'm not perfect—but I'm here,

Em

Hoping grace can draw us near.

C

I want peace before I disappear...

D G

I just want to clear the air.

G

I never meant for shadows

Em

To settle between our names,

C

Just trying to lift the stories

D

That time has bent and changed.

G

I've loved with all my failings,

Em

And I've spoken wrong before—

C

But my heart still hopes for healing

D G

When you open up the door.

Em

If distance built these walls up,

D

Let mercy pull them down.

C

We've all carried our burdens—

G

No saint walks this ground.

Em

But if there's still a moment

D

To meet in honest light...

C

I'll lay my pride behind me

D

Just to make things right.

G

I'm just trying to clear the air,

Em

Lay my truth down soft and bare—

C

I've stumbled, but I still care,

D

And I don't want this hurt to stay.

G

If forgiveness finds a doorway,

Em

I'll walk through without delay—

C

I want peace before my final day,

D

And love to have the final say.

G

I'm not perfect—but I'm here,

Em

Still hoping we can reappear.

C

Let the past fade into prayer...

D G

I just want to clear the air.
